Wied Il-Ghasel...

The Federation for Hunting & Conservation – Malta (FKNK) wishes to express solidarity with the 'Harsien Patrimonju Mosti' Committee and all Mosta residents regarding the destruction of Wied il-Ghasel that is ongoing at present.

Unfortunately and yet again, it seems that one of the few remaining valley ridges on the Maltese islands will be lost forever. The area's rich ecological, cultural, rural and aesthetic features, including traditional age old rubble walls and a 'Girna' will no longer stand. The area is also an integral part of a tree reserve, however all is in danger of destruction in the name of progress.

Lino Farrugia
Secretary - FKNK
