Protest at Baħrija...

The Federation for Hunting & Conservation – Malta (FKNK), through a few officials from within its ranks joined the protest staged last Thursday at the Baħrija valley. The protest's leader, Mr. Lino Debono from the Ramblers' Association, must have purposely omitted to thank the FKNK for their support in his address to the Press, because he had been informed of FKNK's presence beforehand on several occasions.

The FKNK is against any destruction of the little natural environment left on these islands, however may not be entirely contrary to a development as long as this is properly regulated and congruent with the area's ambience.

Being a Member of the European Landowners' Organisation, the FKNK above all respects the rights of private land owners.

Anthony Mifsud
Vice-President – FKNK
