MALTESE SPRING HUNTING FACT FILE

The traditional limited spring hunting season on the Maltese islands will open tomorrow 10 April 2013.

Yesterday, officials of the Federation for Hunting & Conservation – Malta (FKNK) and the St. Hubert Hunters (KSU) distributed booklets (http://archive.huntinginmalta.org.mt/uploads/24/861/SPRING_HUNTING_FACT_FILE_2013.pdf) 'Maltese Spring Hunting Fact File' to the Maltese Members of Parliament on their entry to the Parliament Building in Valletta.

The booklet highlights the true solid facts on which the Maltese spring hunting derogation is based, consideration of which should suffice to show all people of goodwill what the true position is, regarding this issue.
